a Reimbursements from the Federal Government for a substantial portion of National Guard expenditures are anticipated. Such receipts will be credited to the support appropriation, but have not been counted upon as a source of support for the National Guard since their amount and date of receipts are not known at this time.

| a Through error the Budget Act of 1948 appropriation for the support of the California Highway Patrol was made payable from The General Fund rather than from the Motor Vehicle Fund. The General Fund money has not been spent and will be allowed to revert. Under authority of Section 19 of the Budget Act, \$3,500,000 was transferred from the support appropriation of the Department of Motor Vehicles to support the Highway Patrol pending convening the 1949 Legislature. Special legislation will be requested in the 1949 Session to appropriate the necessary funds from the Motor Vehicle Fund for the support of the Highway Patrol and to repay \$3,500,000 to the Department of Motor Vehicles. | | | | | | | | |
| b The administration of the Vehicle License Fee Act is so closely interwoven with the registration of vehicles that it has been impossible to pay these costs directly from the Motor Vehicle License Fee Fund as the expense is incurred. The procedure is, therefore, to pay all departmental expenses from the Motor Vehicle Fund, to which the appropriation for administration of the Motor Vehicle License Fee Act is transferred in accordance with Section 11003 of the Revenue and Taxation Code. | | | | | | | | |
| Percentages of departmental expenditures chargeable to the collection of Vehicle License Fees have been determined by a study made by the Department of Motor Vehicles in collaboration with the Department of Finance. | | | | | | | | |
| c It is recommended that Section 105 of the Vehicle Code be amended to increase the salary of the Director of Motor Vehicles from \$10,000 to \$12,000 per year. | | | | | | | | |

^a Interest, principal and sinking fund payments on these issues to their final maturities are covered by transfers from the Bond Sinking Fund of 1943.

^b Donated funds have been set aside in the Olympic Bond Fund for payment of interest and redemption on these bonds.

^c Interest and redemption on these bonds are covered by motor vehicle license fee revenues transferred to the General Fund.

^d With the exception of the Sinking Fund payment on the Sacramento State Buildings Bonds of 1913, the debt service expenditures for each fiscal year include interest and redemption payments due on July 2d of the succeeding fiscal years, which are disbursed from the Treasury on May 30th for transmittal to the State's fiscal agent in New York City.

^e Does not include \$5,000,000 transferred to the Highway Fund as a loan for the Golden Gate Bridge and Highway District, to be repaid out of toll revenues after the bonded indebtedness of the district has been retired.

¹ The increase in proposed expenditures for Administration is small on a percentage basis and is due primarily to changes which were made in the organization of the Division to handle the increased program and which were not foreseen when the budget was prepared in 1947.

² Proposed expenditures for Highway Planning have been increased by the amount of funds allocated for that purpose in the 1947-48 budget which remained unexpended on June 30, 1948, and have been carried forward into the current budget to complete work authorized during 1947-48.

³ Proposed expenditures for Supervision of Outdoor Advertising have been increased on account of the increased activity and revenues of this function.

⁴ A supplementary schedule follows detailing differences in proposed expenditures for Major Construction.

⁵ This item represents the residue of funds made available by Section 203 of the Streets and Highways Code for the Construction Improvement of State highways in cities. The amount shown in the current budget is the balance of funds budgeted in the 1947-48 fiscal year which remained unexpended or unobligated on June 30, 1948, and has been carried forward into the current budget. Agreements have been entered into with the 304 incorporated cities programming the expenditure of these funds and by October 15, 1948, the date of preparing this report, the unexpended balance had been reduced to \$8,358,167 against which there was work under way having a value of \$4,411,559. The remainder of the programmed work will be undertaken as rapidly as plans are prepared by the cities.

⁶ Differences in these items represent unexpended funds carried forward from the 1947-48 budget. In the case of Equipment, the 1947-48 funds were not fully expended primarily because deliveries could not be obtained of equipment for which purchase orders have been issued. In the case of Minor Improvement the balance carried forward represents primarily the cost of completing going day labor jobs.

⁷ Allocations for Rights of Way in the current budget have been increased by the transfer forward of unexpended balances of funds allocated for that purpose in the 1947-48 budget which amounted to \$2,628,705 for the Northern Group of Counties and \$2,276,912 for the Southern Group. Negotiations were in progress on June 30, 1948 for the acquisition of these rights of way and condemnation proceedings had been instituted on parcels having an aggregate value of \$2,850,170. The additional increase in this function was necessitated by the passage of the Federal Aid Highway Act of 1948 which provided \$15,242,000 of additional construction funds for the 1949-50 fiscal year, rights of way for which will have to be acquired in the 1948-49 fiscal year.

⁸ The difference in the amount of the Reserve for Contingencies represents the net decrease resulting from the various increases and decreases in other budget items for the current fiscal year to October 1, 1948.

REASONS FOR REVISIONS OF BUDGETED PROJECTS

- ¹ Revisions to adjust the budget to actual contract obligations.
- ² Balances carried over from preceding fiscal years funds to complete day labor work.
- ³ Right of Way Commitment with U. S. Bureau of Reclamation requires State to install irrigation crossings as required.
- ⁴ Sudden cracking of concrete weakened structure to point that complete replacement required.
- ⁵ Increase due to redesign of project to meet revised traffic conditions.
- ^{5a} Decrease due to redesign from a freeway to a city street design.
- ⁶ Contract cost \$17,768 in excess of Budget funds and \$11,000 necessary for additional asphalt because of type of aggregate.
- ⁷ Unable to clear Right of Way for construction prior to 1949 and as additional Right of Way funds needed for this and other projects in an expanded Federal Aid program this project was postponed to 1949-50 Fiscal Year and released funds were transferred for the acquisition of Rights of Way.
- ⁸ Increased cost of toll collecting facilities and revision in design.
- ⁹ To meet executed Joint Highway District agreement.
- ¹⁰ Extension of project and general increased costs.
- ¹¹ Low budget estimate and general increase in costs.
- ^{11a} High budget estimate and bid below estimate.

NEW PROJECTS

- ¹² Existing road damaged by heavy timber hauling.
- ¹³ To provide surface on completed portions of a convict labor project.
- ¹⁴ Required to finance section of project on private lands and make up deficiencies in funds in order to secure \$276,191 of Federal Lands Funds.
- ¹⁵ To improve hazardous and inferior sections of this school bus route.
- ¹⁶ Revisions required to increase safety on new freeway and to comply with right of way commitments.
- ¹⁷ Rapid local development requires widening of the surface.
- ¹⁸ Existing road damaged by heavy timber hauling.
- ¹⁹ Increased traffic causes hazards at critical locations.
- ²⁰ Local development requires separation of through traffic.
- ²¹ To correct dangerous condition at intersections.
- ²² Transfer of Prison Camp activities from Rte. 77 to Rte. 12.
- ²³ Cooperative storm drain project with City of Los Angeles.
- ²⁴ Necessary changes in type of work made after budget estimate was prepared.
- ²⁵ To eliminate a hazardous condition involving pedestrians. Several accidents have occurred.
- ²⁶ Budget estimate low and did not provide for installation of signals.
- ²⁷ Major realignment to be deferred as completion of negotiations relative to highway replacements caused by Prado Dam makes further routing studies desirable.
- ²⁸ To remove a hazardous shoulder condition.
- ²⁹ Executed agreement with City of Los Angeles.
- ³⁰ To allow proceeding with landscaping on a completed freeway project at the most favorable season.
- ³¹ To provide funds for improvement to reduce accidents on the Arroyo Seco Freeway.
- ³² Rte. 2 project deferred because of difficulties encountered in clearing R/W and location. Route 77 project added to complete reconstruction to north of military bases.
- ³³ To eliminate a hazardous condition at the approaches to Paso Robles.
- ^a Projects combined by vote of Commission, to be performed under single contract.
- ^b Project limits revised to actual construction requirements.

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO, December 31, 1948

HONORABLE EARL WARREN
Governor of California, and
MEMBERS, CALIFORNIA LEGISLATURE

The State Public Works Board respectfully submits herewith its Third Annual Report on the status of the postwar building program of state agencies. This report covers the period commencing in June, 1946, when the board was first created, and relates the activities of the board through December 31, 1948.

The report is submitted in accord with the requirements of the State Postwar Construction Act of 1946 (Chapter 145, Statutes of 1946, First Extraordinary Session), which initially provided for the unified state construction program and which vested responsibility in the State Public Works Board to allocate the necessary funds and authorize the undertaking of construction projects. Under the terms of Sections 12 and 13 of that act, the board must report annually on the progress being made in carrying out the building program, the amounts of money allocated and obligated, the balances unencumbered in the various allotments, the balances still available for each of the state agencies, the anticipated needs for expenditure during the coming fiscal year, and the additional amounts which should be appropriated to defray the cost of the continuing and necessary building program.

In previous years the board has submitted two separate annual reports. One of these has been prepared for the Governor several months in advance of the legislative session. The other has been presented to the Legislature when it has convened in annual session. This practice has resulted in some confusion due to the fact that the earlier report, with less current information, has been the one required for reproduction in the printed budget. Therefore, to eliminate a recurrence of this confusion, the annual report submitted herewith is directed to the Governor and the Legislature jointly. It contains current information on all activities of the State Public Works Board to and including the month of December, 1948.

* * * * *

When the board was first created, it had as its sole responsibility a construction program estimated to cost \$154,000,000, with funds in that amount appropriated for such purpose. This program was intended to meet the accumulated needs of the various agencies for replacement of obsolescent facilities and for construction of new facilities to the end that by 1951 the State's physical plant would be adequate to fulfill its requirements. Since that time each succeeding Legislature has increased the scope of the Public Works Board's activities and has broadened its responsibilities. Some of these later developments include the transfer to the board of the full responsibility for the site acquisition program under the Property Acquisition Act, the requirement of board review and approval for construction and improvement projects in the 1947 Budget Act when they exceeded \$5,000 each in cost, and in the 1948 Budget Act when they exceeded \$10,000. A considerable number of special appropriation acts at the last two legislative sessions also have contained provisions requiring board approval as a prerequisite to expenditure of the funds. In addition, the Legislature has, by resolution, made subject to board review the letting of contracts on all prior construction appropriations passed before the state program was unified under the Public Works Board.

Still another activity given the board is that of approval of the requests of various county and district agricultural associations for allocations from the Permanent Improvement Fund of the Fair and Exposition Fund. As this activity is divisible from the regular construction program of the state agencies themselves, the report on this phase of the board's activities is confined to the last section of the text of this over-all report. The total sums available for these local and district fairs are not included in the grand totals reflected below for the operating state agencies.

Even though these increases in responsibility give evidence of the confidence placed by the Legislature in the State Public Works Board and in its ability to prudently carry out the deferred postwar construction program, the various legislative enactments since 1946 have increased tremendously the complexities of reporting on the program. This report is designed to factually cover the activities of the board in as clear a manner as is possible under the circumstances.

* * * * *

The cumulative total since 1946 of all appropriations requiring board action of one kind or another is approximately \$412,000,000. Included in this figure are the reserve moneys which the Legislature has expressly dedicated for postwar construction needs of state agencies, although these funds require legislative authorization before they may be expended. In the table following, the cumulative funds appropriated and made subject to board action before expenditure are listed by agency and classified in the three categories of (a) fixed available appro-

priations, (b) interchangeable available appropriations, and (c) funds frozen in reserve. In explanation of these classifications, *Fixed Available Appropriations* are limited to the individual agencies as indicated, and are intended to be used for the specific purposes for which they were appropriated. This category includes the funds for capital outlays contemplated in the 1947 and 1948 Budget Acts, and the unspent special appropriations for construction in these and prior years. Also included are the several site purchase appropriations as well as projects of the California Polytechnic College, and the Davis and Riverside campuses of the University of California, to be financed from Fair and Exposition Fund moneys in hand and to accrue. *Interchangeable Available Appropriations* include the initial appropriation of the State Postwar Construction Act of 1946 and subsequent expendable additions to that act. Funds in this classification are limited to the agencies as indicated. However, the amounts to be allocated to any specific project are determined by the State Public Works Board. *Funds Frozen in Reserve* are those requiring further legislative action before they may be expended. Although the legislative act setting these moneys aside in a reserve does not specifically detail the amounts for each agency, it is the belief of the Public Works Board that the legislative intent is to "unfreeze" this reserve so that each agency's share of these funds would be available to the extent indicated at the time of the original transfer to the reserve.

In review of the following table, it may be noted that the funds over which the State Public Works Board has the greatest discretionary power approximate one-half of the total funded program.

Since June of 1946 and most particularly during the past 12 months, a major start has been made in the postwar construction program. Through December, 1948, the Public Works Board has approved the undertaking of construction projects at a total estimated cost of \$134,161,460. The total approvals for each department, classified by type of work authorized, are indicated in the table below. Site acquisitions have been excluded from this table. An attachment to this report, designated as *Schedule "B,"* gives the detail of the approvals for the individual institutions and schools:

THIRD ANNUAL REPORT OF STATE PUBLIC WORKS BOARD TO GOVERNOR AND LEGISLATURE ON STATUS OF POSTWAR BUILDING PROGRAM OF STATE AGENCIES

As Authorized by State Postwar Construction Act of 1946 and Other Appropriation Acts Related Thereto—Continued

A further requirement of Sections 12 and 13 of the State Postwar Construction Act is that each of the projects approved by the board shall be listed herein, and that the encumbrances of funds against the particular project shall be shown along with the balances remaining in each allotment. The detail of all projects so approved is contained in *Schedule "C"* attached. However, the summary of this information, indicating by agency the total approvals granted, the encumbrances of funds as of December 15, 1948, and the balances remaining unencumbered within the allotments, are shown in the following table:

STATUS OF ENCUMBRANCES OF FUNDS FOR CONSTRUCTION PROJECTS AS OF DECEMBER 15, 1948

As the unified construction program, financed in 1946 at a cost then estimated at \$154,000,000, is still the major segment of the total state construction program, there is attached to this report as *Schedule "D"* a listing by agency of the various priority projects contained in the report of the Director of Finance to the 1946 Special Session, which projects have been approved by the Public Works Board either in whole or in part. These represent mainly the major construction and improvement projects of the state agencies. It will be noted in a review of this schedule that the unified construction program is underfinanced. In practically every case where the board has given approval for construction of a particular project, the estimated costs of such construction are exceeding by far the 1946 estimate of cost; and in the majority of cases are even in excess of the financing of the project, including the augmenting appropriations of the 1947 and 1948 sessions. Two conclusions are evident. First, that reserve funds must be made available for expenditure within the immediate future if the program is to be continued. Secondly, the total funds, even including the augmentations in the reserve, are not sufficient to finance the entire program as originally contemplated. It is believed necessary at this time that the entire construction needs of the state agencies be made again the object of a careful review and study to include consideration of financing necessary to meet realistically the currently known needs of the state agencies. And, at the same time to appraise the extent of the State's physical plant requirements which may be expected over the next ten to twenty years as a result of the unprecedented, continuing population growth of the current decade.

The preceding sections of this report have dealt primarily with total funds available and in the reserve, with total approvals for construction granted to date, and the status of expenditures of such approvals. In summary of this, the following schedule indicates the status as of December 31, 1948, of funds of the agencies. It shows total approvals for construction, site acquisition commitments, and the balances still remaining subject to future Board action:

Required for inclusion in this report is an estimate of the anticipated needs for construction expenditures during the coming fiscal year. The period covered in this estimate is the twelve months commencing July 1, 1949, and ending June 30, 1950.

As a preface to this phase of the report, it is desirable to review briefly the factors which have governed the extent of board approvals to this time. The Postwar Construction Act defines certain criteria to guide the board in making its determinations on construction projects. These criteria include giving consideration to the immediate needs of the state agencies for construction and improvements, to weigh these needs against the needs for private construction, to obtain construction at a cost consistent with need, and to provide relief of unemployment through state public works. Since its creation, the members of the State Public Works Board have attempted conscientiously and carefully to weigh all of these factors before approving construction projects. However, it is their careful, well-considered opinion that the most important of the criteria, which have served the board as a guide, is that of the need of the state agencies to obtain relief from the intolerably overcrowded and distressed living conditions at the hospitals and other institutions for the care of the mentally ill and other wards of the State. The provision of new facilities at the educational institutions is also a need of equal urgency.

During the current decade the State of California has received an unprecedented increase in its population, creating problems beyond those ever anticipated. However, it can be calculated with almost precise accuracy what percentage of each thousand new residents will require schooling at the various state colleges, will become wards of the State needing care and treatment at state institutions, or will be committed to the state correctional facilities. Concurrently with this, the state government itself has grown and expanded during the preceding ten years, with the resulting requirement for additional office facilities far beyond all previous estimates. In this connection particularly, real and true economies can be effected if the State is able to furnish its own quarters

As Authorized by State Postwar Construction Act of 1946 and Other Appropriation Acts Related Thereto—Continued

for state governmental offices rather than continuing indefinitely to pay excessive rentals in privately owned decentralized office buildings.

Another major consideration is the ever-mounting cost of construction. Generally speaking, the bulk of the state postwar building program is financed now at approximately the 500 index level (1913=100), with costs running at about a 600 index. Despite the excessive and unanticipated high expenditures for practically every project, the Board has determined that the construction program must be prosecuted diligently. The needs of the agencies make this conclusion inescapable. And as well, it is the considered opinion of competent advisers that there are no apparent prospects of immediate relief in the way of lessening costs of construction.

Still another factor which has had a bearing on the Board's actions to date is the ability of the State Division of Architecture to prepare plans and specifications for construction projects, to process them to bids, and to carry on the program of field supervision during actual construction. This division has been handicapped through inability to recruit the necessary additional personnel required by the size of the program. Intensive recruitment activities by the agency and the State Personnel Board have served to afford some relief, but the needs have not as yet been met. As a net result, the size of the construction program approved thus far has been circumscribed by the ability to plan for it and supervise it in the architectural and engineering phases.

However, as a result of a recent opinion of the Attorney General, it is now possible to employ private architects under contract to prepare plans and specifications for certain selected state construction projects. As this opinion has only been rendered within the last few months, the program is still in process of formulation. It is intended to be in full operation during the coming fiscal year, and will permit a sizable portion of the major construction jobs to be contracted to private architects for the time consuming plan preparation phase of the work. It is proposed that the work so to be contracted will be confined mainly to school buildings and to office buildings. It is not intended at this time to let out to private architects the preparation of plans and specifications on any large segment of the institutional building program. This is a specialized type of work which can best be handled by the experienced personnel of the State Division of Architecture.

Taking all of these factors into consideration, it is the estimate of the State Public Works Board that a construction program, estimated to cost approximately \$137,000,000, can be started during the coming fiscal year. On this basis, the total commitments during the fiscal year 1949-1950 for each of the state agencies participating in the program would be as listed below:

| | | | |
|--|------------|---|---------------|
| Department of Agriculture----- | \$500,000 | Department of Natural Resources----- | \$3,430,000 |

* * * * *

The last requirement for inclusion in this report under the Postwar Construction Act is the recommendation of the board on such additional appropriations as may be necessary to carry on the building program for the coming year. The recommendations made in this section are directly related to the expenditure estimates in the preceding section immediately above. They are an integral part thereof if a construction program of the size proposed and needed is to be undertaken.

Considering the extent of Public Works Board approvals to date, and the present rate of such approvals, it is evident that the available cash funds of the majority of the agencies will be committed before the end of the current fiscal year or shortly thereafter. To continue an orderly program of needed construction, legislative action is necessary making available for expenditure the funds frozen in the postwar employment reserve.

A total of \$116,950,000 has been appropriated and set aside in this reserve by legislative enactments at the 1947 and 1948 Regular Sessions. For reasons stated previously in this report, the State Public Works Board recommends that these moneys be appropriated for expenditure to the agencies and in the amounts as listed below. The recommended allotment for each agency is consistent with the prior recommendations of this board which resulted in the original legislative transfers to the reserve.

THIRD ANNUAL REPORT OF STATE PUBLIC WORKS BOARD TO GOVERNOR AND LEGISLATURE ON STATUS OF POSTWAR BUILDING PROGRAM OF STATE AGENCIES

As Authorized by State Postwar Construction Act of 1946 and Other Appropriation Acts Related Thereto—Continued

In addition to the foregoing, which does not in the true sense represent a recommendation for "new" financing, the board has had for consideration a number of agency proposed programs requiring additional funding of approximately \$180,000,000 over and beyond presently available appropriations and the reserve funds. These proposals are an indication of the extent to which the deferred building program is underfinanced. But, in the opinion of the board and provided funds in the reserve are made available for expenditure during the next fiscal year, appropriations for the bulk of these requests can be deferred until the 1950, 1951 and later legislative sessions.

The board has critically analyzed the requests received on the basis of whether the projects could reasonably be started in the 1948-1949 fiscal year, and whether they contemplated expansions involving policies not yet determined by the Legislature. As a result of this review and scrutiny, the recommendation of the Public Works Board for funding of new capital outlay requirements is confined to selected projects of four agencies only. Many additional items presented by these and other agencies are worthy of full consideration, but are not recommended herewith for the reasons stated above.

However, the State Public Works Board does recommend that appropriations be made at the 1949 legislative session in the amount of \$19,276,500 to the following four agencies for the purposes listed:

| | |
|--|--------------|
| DEPARTMENT OF EDUCATION----- | \$6,421,500 |
| To permit construction during the coming year of the partially financed priority building program of the State colleges; to expand the size of the basic campus facilities of San Francisco State College for a maximum expected enrollment of 5,000 students; to permit initial construction on the campus in Sacramento of the new four year institution of higher education; and to provide for the purchase of additional needed land at the Humboldt, San Diego and Chico State Colleges. | |
| NATIONAL GUARD----- | 6,050,000 |
| To complete the State-wide permanent armory building program. | |
| DEPARTMENT OF PUBLIC HEALTH----- | 160,000 |
| To permit acquisition of the remaining parcels at the site in Berkeley of the departmental headquarters office building and laboratory. | |
| DEPARTMENT OF FINANCE----- | 6,645,000 |
| In Sacramento, to construct a new two-square-block State office building on the Capitol Mall; to provide additional office space in the Public Works Building Annex; to remodel completely State Office Building No. 1; to acquire additional warehouse space; and in San Diego, to augment the appropriation for purchase of the State building site. | |
| Total----- | \$19,276,500 |

* * * * *

As stated earlier in this report, the Public Works Board has as one of its newer responsibilities the selection and acquisition of sites for new schools, institutions, hospitals, prisons and office buildings under the Property Acquisition Act. This site program was initially authorized in 1944, and has been carried on intensively since that time. In one of the attachments to the report, designated as *Schedule "E,"* there is reviewed briefly the present status of each of the several site purchase appropriations. However, the summary by agencies of expenditures and commitments for site acquisitions through December, 1948, is as follows:

| | | | |
|-----------------------------------|-----------|--|-------------|
| Department of Agriculture----- | \$27,451 | Department of Motor Vehicles----- | \$425,000 |
| California Youth Authority----- | 20,000 | Department of Natural Resources----- | 55,000 |
| Department of Corrections----- | 894,710 | Department of Public Health----- | 300,000 |
| Department of Education----- | 1,845,217 | State Agric. Society and Sixth Dist----- | 1,010,000 |
| Department of Finance----- | 3,502,412 | | |
| Department of Mental Hygiene----- | 908,995 | Total----- | \$8,988,785 |

* * * * *

Also referred to previously and representing another responsibility of the board is the consideration of requests for allocation from the Permanent Improvement Fund of the Fair and Exposition Fund for financing of permanent improvements at the county and district fairs. The board's authority permits either outright grants or those made on a matching basis with the local fair management sharing the cost of the proposed improvement from its own funds. In passing on the requests of these local fairs, the board has made allocations only after careful scrutiny of the financial condition of the fair and the extent to which it has received prior allocations from this fund. Factors considered include the age of the fair, and whether it has had sufficient opportunity to build up reserves to at least partially finance its own construction; the efficiency of the local management, and whether the fair has given reasonable indication of eventually operating on a self-supporting basis. The Fairs and Expositions Division of the Department of Finance has continued to render technical assistance and help in processing and reviewing the requests of the local agencies. As a concluding attachment to this report, *Schedule "F"* lists the actual amounts of the allocations to date by the State Public Works Board for these local and district fairs.

Respectfully submitted,

JAMES S. DEAN
Chairman, State Public Works Board

Schedule E

STATUS AS OF DECEMBER 31, 1948, OF VARIOUS ACTS PROVIDING FOR PURCHASE OF SITES
FOR NEW OR ENLARGED STATE FACILITIES

DEPARTMENT OF AGRICULTURE

- a. Poultry Improvement Commission, Modesto (Chap. 486, Stats. 1947 (Item 42.5))----- \$5,000
3.354 acres of unimproved land adjoining to the east the present Egg Laying Test Station have been purchased.
- b. Quarantine Inspection Stations and Laboratories (Chap. 1440, Stats. 1946 and Chap. 23, Stats. 1948 (Item 44))-- \$42,300
These acts contemplate the purchase of sites for eight quarantine inspection stations and two diagnostic laboratories. Station sites at Hornbrook, Yermo and Peavine, and laboratory sites at Fresno and San Gabriel have been acquired.

CALIFORNIA YOUTH AUTHORITY

- a. Boys' School and Clinics (Chap. 101, Stats. 1946)----- \$100,000
Purchase of approximately 200 acres near Paso Robles, San Luis Obispo County, as the site for the Boys' School has been completed. This property formerly comprised part of the Estrella Army Air Base and was acquired from the Federal Government.
A 22½ acre site near Sacramento was purchased for location of the Northern California Reception Center and Clinic. However, the City of Sacramento has requested the use of this property for expansion of its airport. Legislation to permit sale to the city will be introduced at the 1949 Legislative Session. Investigations are proceeding on other locations for the clinic in the Sacramento area.
Preliminary reports have been obtained on property near the town of Norwalk, Los Angeles County, that may be suitable for the Southern California Reception Center and Clinic. More complete investigations are in process directed toward presenting selection of this site for board consideration in February.
- b. Fred C. Nelles School (Chap. 486, Stats. 1947 (Item 69))----- \$184,125
No site has been selected as yet for the new location of the Nelles School.

DEPARTMENT OF CORRECTIONS

- a. Medium Custody Prison, Young Offenders (Chap. 644, Stats. 1945 (Item 251))----- \$300,000
783 acres of agricultural land near Tracy in San Joaquin County have been acquired.
- b. Medical Center (Chap. 644, Stats. 1945 (Item 252))----- \$300,000
A site of approximately 905 acres near Vacaville, Solano County, has been purchased.
- c. Medium Custody Prison, Older Prisoners (Chap. 644, Stats. 1945 (Item 253))----- \$300,000
A site of approximately 936 acres near Soledad in Monterey County has been acquired, and is now being operated as a prison by the Department of Corrections.
- d. California Institution for Women, New Site (Chap. 1051, Stats. 1947)----- \$200,000
The board has approved a site of 125 acres of unimproved agricultural land five miles south of Chino, in San Bernardino County. This acquisition should be completed within the next 60 days.
- e. Medium Security Prison (Chap. 23, Stats. 1948 (Item 67))----- \$500,000
As yet no site has been selected for this facility. Preliminary investigations of several properties in Southern California are being made.

DEPARTMENT OF EDUCATION

- a. Chico State College (Chap. 486, Stats. 1947 (Item 86))----- \$140,000
This act contemplates the purchase of several parcels of urban property adjacent to the campus of the college. Preliminary investigations are underway.
- b. Fresno State College (Chap. 1466, Stats. 1945)----- \$45,000
The purchase of 120 acres of agricultural land about three miles from the present campus has been completed.
- c. Fresno State College, New Campus (Chap. 1413, Stats. 1947)----- \$275,000
Condemnation proceedings have been instituted against 160 acres north and east of the present campus. The trial date has been set in April, 1949.
- d. Humboldt State College (Chap. 644, Stats. 1945 (Item 251.1))----- \$195,000
Eighteen parcels of improved urban property have been acquired, which completes the purchase under this item.
- e. Humboldt State College (Chap. 23, Stats. 1948 (Item 106))----- \$95,000
Further expansion of the Humboldt State College campus has been provided for in this budget item. Purchase of several unimproved parcels adjacent to the campus is contemplated. Preliminary investigations have been started.
- f. New State College, City of Los Angeles (Chap. 23, Stats. 1948 (Item 109.5))----- \$1,500,000
Further legislative action officially establishing the college is required before these funds may be expended.
- g. New State College, Orange County and Southeastern Los Angeles County (Chap. 23, Stats. 1948 (Item 111.2))-- \$1,500,000
Further legislative action officially establishing this college is required before any of these funds may be expended.
- h. New State College, Sacramento (Chap. 23, Stats. 1948 (Item 111.1))----- \$1,500,000
The board has ordered the staff to obtain complete information including appraisals on approximately 185 acres in the southeasterly section of the city of Sacramento.
- i. San Francisco State College (Chap. 32, Stats. 1944)----- \$50,000
A condemnation suit is pending on 36.5 acres of additional land at the new campus site. Funds herein provided have been combined with an allocation from the student housing appropriation (Chap. 155, Stats. 1946). Title has been acquired to two of the four parcels involved. Settlement on the two remaining parcels is imminent.

Schedule E

STATUS AS OF DECEMBER 31, 1948, OF VARIOUS ACTS PROVIDING FOR PURCHASE OF SITES FOR NEW OR ENLARGED STATE FACILITIES—Continued

DEPARTMENT OF EDUCATION—Continued

| | |
|---|-------------|
| j. San Jose State College (Chap. 23, Stats. 1948 (Item 117))----- | \$35,000 |
| Purchase of an improved urban parcel adjacent to the main campus has been ordered by the board. Title should pass to the State within the next 30 days. Purchase of property for a green house is also contemplated by this appropriation, although no site for this has as yet been developed. | |
| k. San Jose State College (Chap. 24, Stats. 1944)----- | \$700,000 |
| Three publicly owned parcels adjoining the campus of the college have been acquired. Four of 34 privately owned improved parcels have been approved by the Public Works Board. Investigations have been started on the remaining 30 parcels. | |
| l. San Jose Stadium Tract (Chap. 1461, Stats. 1947)----- | \$134,000 |
| Thirty-five acres of unimproved property adjacent to the San Jose State College stadium have been acquired. | |
| m. School for the Deaf, Southern California (Chap. 152, Stats. 1946)----- | \$3,000,000 |
| Acquisition has been completed on approximately 72 acres of agricultural land within the city limits of Riverside as the location for this school. | |
| n. Cerebral Palsied School, Northern California (Chap. 486, Stats. 1947 (Item 109) (includes construction))----- | \$693,128 |
| No site has as yet been selected for the permanent location of this school, which is now leasing temporary facilities at Redwood City. As the operation of the school is tied in with the University Medical Center in San Francisco, the Department of Education and the university have been asked to formulate a joint recommendation as to the most desirable area in which the school should be located. | |
| o. Cerebral Palsied School, Southern California (Chap. 486, Stats. 1947 (Item 111) (includes construction))----- | \$738,855 |
| This new school site is also undetermined. Under present arrangements the school is being operated in temporary quarters in Pasadena. It is understood that the University of California may acquire, in the near future, certain acreage adjacent to the Los Angeles Campus, which can be made available for this school. Further site investigations are being held in abeyance pending completion of the land purchase negotiations by the university. | |
| p. Student Housing—All State Colleges (Chap. 155, Stats. 1946) (includes construction)----- | \$6,000,000 |
| The funds in this appropriation were made available to finance the dormitory program at the various state colleges. To date land purchase investigations are being carried on at the present campus in San Diego and San Jose, and at the new site for the San Francisco State College. | |

DEPARTMENT OF FINANCE

| | |
|--|-------------|
| a. Garage, Sacramento (Chap. 30, Stats. 1944)----- | \$150,000 |
| The south half of the block bounded by 9th, 10th, N and O Streets in the City of Sacramento has been acquired as the site for the state garage. | |
| b. Office Building, Sacramento (Chap. 22, Stats. 1944)----- | \$1,000,000 |
| The south half of the block bounded by 7th, 8th, L and M Streets, the south half (excluding the Sutter Club property) of the block bounded by 8th, 9th, L and M Streets, and all of the two square blocks bounded by 7th, 9th, M and N Streets in the City of Sacramento have been purchased as sites for new state office buildings. | |
| c. Governor's Residence, Sacramento (Chap. 31, Stats. 1944)----- | \$200,000 |
| Nine of the ten parcels contemplated for purchase have been acquired. Negotiations are still in progress on the remaining parcel. This property is located in the block bounded by 14th, 15th, N and O Streets in the City of Sacramento. | |
| d. Office Building, Sacramento (Chap. 23, Stats. 1948 (Item 165))----- | \$300,000 |
| This appropriation contemplates the purchase of the south half of the block bounded by 11th, 12th, N and O Streets, Sacramento, for use as the site for the annex to the Public Works Building. Purchase of 14 of the 16 parcels involved has been completed. The remaining two parcels will probably be acquired within the next 30 to 60 days. | |
| e. Office Building, Fresno (Chap. 1414, Stats. 1945)----- | \$250,000 |
| The Public Works Board has approved the purchase of nine parcels of improved property in the block bounded by Mariposa, Tulare, O and P Streets. This area is within the civic center approved by the City of Fresno. Negotiations with the property owners are in progress. | |
| f. Office Building, Los Angeles (Chap. 23, Stats. 1944)----- | \$850,000 |
| Revisions in the Los Angeles Civic Center plan will necessitate the sale of the site already purchased at the northwest corner of First and Broadway to the County of Los Angeles. A new site between 1st and 2d, Broadway and Hill Streets has been selected and negotiations on parcels within this block are now in process. A large portion of the new site is publicly owned. | |
| g. Office Building, Oakland (Chap. 1237, Stats. 1947)----- | \$500,000 |
| The block bounded by 11th, 12th, Alice and Jackson Streets in Oakland has been officially selected as the site for the Oakland State office building. This site is a part of the Oakland Civic Center. Title has passed to the State on five of the eight parcels involved. Negotiations are continuing on the remaining three parcels. | |
| h. Office Building, San Diego (Chap. 1131, Stats. 1947)----- | \$200,000 |
| The San Diego Civic Center plan contemplates a state building that will ultimately occupy two square blocks. Investigations and appraisals have been completed on the first block bounded by India, Columbia, Cedar and Date Streets. Official action on this property will be presented for consideration by the Public Works Board at its January meeting. | |
| i. Office Building, San Francisco (Chap. 25, Stats. 1944)----- | \$450,000 |
| Purchase of the half block lying to the north of the present San Francisco State Building has been completed. | |

Schedule E

**STATUS AS OF DECEMBER 31, 1948, OF VARIOUS ACTS PROVIDING FOR PURCHASE OF SITES
FOR NEW OR ENLARGED STATE FACILITIES—Continued**

DEPARTMENT OF FINANCE—Continued

| | |
|--|-----------|
| j. Office Building, San Francisco (Chap. 644, Stats. 1945 (Item 124))----- | \$275,000 |
| The office building now occupied by state agencies at 515 Van Ness Avenue, San Francisco, has been purchased under authority of this act. | |
| k. Office Building, San Jose (Chap. 1104, Stats. 1947)----- | \$50,000 |
| The San Jose Civic Center plan is still in the formulative stage. The selection of a site for the state building will be deferred until this plan has been officially adopted. | |
| l. Office Building, Santa Barbara (Chap. 1105, Stats. 1947)----- | \$50,000 |
| Investigations of possible state building sites in Santa Barbara are being held in abeyance until the local Civic Center plan has crystallized. | |
| m. Office Building, Stockton (Chap. 1358, Stats. 1947)----- | \$50,000 |
| Preliminary investigations have been completed on possible sites within the Stockton Civic Center area. However, the board has ordered that further action be temporarily deferred. | |
| n. Printing Plant, Sacramento (Chap. 23, Stats. 1948 (Item 167))----- | \$400,000 |
| The Public Works Board has officially selected a site of approximately 17 acres in the Industrial Park Area of Sacramento. As agreement has been reached on the terms of purchase, title will pass during January, 1949. | |

DEPARTMENT OF MENTAL HYGIENE

| | |
|--|-----------|
| a. Agnews State Hospital (Chap. 486, Stats. 1947 (Item 189))----- | \$110,000 |
| Approximately 118 acres of agricultural land has been purchased adjacent to the Agnews Hospital annex. | |
| b. Langley-Porter Clinic (Chap. 486, Stats. 1947 (Item 184))----- | \$20,000 |
| Approximately 2.03 acres adjoining the clinic has been purchased from the University of California. | |
| c. Pacific Colony (Chap. 486, Stats. 1947 (Item 217))----- | \$300,000 |
| The board has authorized the acquisition of approximately 600 acres of agricultural land adjoining Pacific Colony on the west. Negotiations are being conducted with the property owner. An early settlement is anticipated. | |
| d. Patton State Hospital (Chap. 486, Stats. 1947 (Item 205))----- | \$100,000 |
| Stipulated agreements have been reached with the owners of two of the five parcels of agricultural land adjacent to the Patton State Hospital approved by the Board for purchase. Negotiations are in progress with the owners of the remaining three parcels. | |
| e. Institution for Epileptics (Chap. 28, Stats. 1944)----- | \$300,000 |
| A site of approximately 1,225 acres near Porterville in Tulare County has been acquired. | |
| f. Maximum Security Institution (Chap. 27, Stats. 1944)----- | \$400,000 |
| A site of approximately 1,191 acres has been purchased just south of Atascadero in San Luis Obispo County. | |
| g. Mental Defectives Hospital (Chap. 23, Stats. 1948 (Item 358))----- | \$400,000 |
| The site for this institution has not yet been selected. Investigations are being made of areas north of Los Angeles. Availability of sufficient water for domestic and agricultural use has been a major problem here. | |
| h. Mental Hospital (Chap. 486, Stats. 1947 (Item 214))----- | \$400,000 |
| Preliminary investigations of a possible site near Costa Mesa in Orange County have been completed. Appraisals of approximately 780 acres of agricultural land are now being obtained. | |
| i. Psychiatric Hospital Clinic, Los Angeles (Chap. 486, Stats. 1947 (Item 186))----- | \$100,000 |
| This site has yet to be selected. However, it is anticipated that this new clinic will be located adjacent to the Southern California Medical Center of the University on the Los Angeles campus. | |

DEPARTMENT OF MOTOR VEHICLES

| | |
|---|-----------|
| a. Office Buildings, State-wide (Chap. 100, Stats. 1946 and Chap. 1461, Stats. 1947)----- | \$602,500 |
| At its December meeting, the board authorized the acquisition of the block bounded by Broadway, 30th Street, First Avenue and Franklin Boulevard and the north half of the block bounded by First and Second Avenues, Franklin Boulevard and 30th Street in the City of Sacramento. This property is being acquired as the site for the Headquarters office building of the Department of Motor Vehicles. | |
| Investigations are being made on property adjoining the Glendale Motor Vehicles office, proposed for public parking use. | |

DEPARTMENT OF NATURAL RESOURCES

| | |
|---|----------|
| a. Division of Fish and Game (Chap. 23, Stats. 1948 (Item 266))----- | \$15,000 |
| This budget item provides funds for purchase of sites for several district offices for the Division of Fish and Game. Investigations are progressing on one location consisting of approximately five acres near Alturas, Modoc County. | |
| b. Division of Forestry (Chap. 23, Stats. 1948 (Item 278))----- | \$71,200 |
| The Public Works Board has officially approved the acquisition of sites for fire control stations at El Toro in Orange County, and at Healdsburg and Occidental in Sonoma County; and for a district headquarters office in Santa Rosa. Negotiations are in progress on all of these. | |

Schedule E**STATUS AS OF DECEMBER 31, 1948, OF VARIOUS ACTS PROVIDING FOR PURCHASE OF SITES
FOR NEW OR ENLARGED STATE FACILITIES—Continued****DEPARTMENT OF PUBLIC HEALTH**

- a. Office Building, San Francisco Bay Area (Chap. 486, Stats. 1947 (Item 285))----- \$300,000
One entire square block and a portion of another in the city of Berkeley has been selected as the site for the headquarters office building and laboratory of the Department of Public Health. This property is just west of the University campus. Stipulated agreements have been reached with the owners of seven of the twelve parcels involved. The remaining parcels should be acquired within the fiscal year.

SIXTH DISTRICT AGRICULTURAL ASSOCIATION

- a. Parking Area (Chap. 1463, Stats. 1947)----- \$2,000,000
Under authority of this act, the purchase of three square blocks bounded by Menlo, Vermont and Santa Barbara Avenues and Exposition Boulevard in the city of Los Angeles for use as a parking area will ultimately be accomplished. At the present time, however, consideration is only being given to parcels within this area having minor improvements or those that are unimproved. To date the board has approved for purchase 51 parcels that fall in this category. Of these, 10 parcels have actually been acquired. Negotiations on the remaining ones are in progress.

STATE AGRICULTURAL SOCIETY

- a. New State Fair Site (Chap. 1318, Stats. 1947) (Includes improvements)----- \$2,000,000
No choice of a new fair site has been made. Investigations have been made on several possible areas. However, further action by the Public Works Board has been deferred until its February meeting.

NOTES:

a Total apportionment for public schools during 1949-50 have been estimated on the basis of \$120 per unit of estimated average daily attendance in 1948-49, plus the excess cost of educating physically handicapped students and mentally retarded minors (Constitution, Art. IX, Sec. 6, and Educ. Code Secs. 5153 and 5153.5). Division of the total according to school level and purpose of expenditure, as shown above, has been made in accordance with Chapter 401, Statutes of 1947. This legislation expires June 30, 1949, unless extended or amended by subsequent action of the Legislature.

b General support and supervision computed at \$114.90 per unit of attendance for kindergarten and elementary grades, \$114.91 for high schools, and \$117.10 for junior colleges.

c Total for transportation and reserve for emergencies computed at \$2 per unit of attendance, excluding grades 13 and 14 (Educ. Code Sec. 7011). Division of the total into amounts for transportation and emergency reserve is based upon experience in 1948-49.

d Excess cost of educating physically handicapped estimated at \$320 per unit of attendance. Division among elementary, high school, and junior college grades is based upon enrollment in October, 1948, and apportionments for this purpose in 1948-49.

e Excess cost of educating mentally retarded minors estimated at \$75 per unit of attendance. Division of the total between elementary and high schools is based upon enrollments in October, 1948.

f Computed at \$3 per unit of attendance (Educ. Code Sec. 7001).

g Computed at \$2,400 for each of the 58 counties (Educ. Code Sec. 7003).

CORRECTIONAL INDUSTRIES REVOLVING FUND PROGRAM

The Correctional Industries Revolving Fund was created by Chapter 84, Statutes of 1945 to constitute a permanent revolving fund in the sum of not less than \$730,000 to be used to meet the expenses necessary in the purchase of materials and equipment, salaries, utilities, use of prison trucks and automobiles for transportation, rental of prison buildings, and cost of administering the work program of the Department of Corrections in the prisons and institutions under its jurisdiction. Moneys received from the rendering of services or the sale of products in the prisons and institutions are paid to the State Treasurer monthly for credit to the fund.

The Correctional Industries Commission, consisting of the Director of Corrections and six members appointed by the Governor, was created by Chapter 1137, Statutes 1947. Two members represent organized labor, two represent industry, one represents agriculture, and one represents the general public. Under the Statute it is empowered to recommend productive industrial and agricultural enterprises in the prisons and institutions and determine the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of more than \$25,000 value but less than \$175,000 value and authorize or prohibit such activity. There are specific exceptions to this authority for some projects already under way but it does apply to all new projects.

Work programs are under way in all institutions except the State Prison at Soledad. Industrial activities are planned for this prison; however, they have not as yet materialized sufficiently for inclusion in this budget.

Activities range from farm and ranch operations at the Institution for Men, Chino, to large industrial operations such as the Jute Mill at the State Prison at San Quentin and the Motor Vehicle License Plate Factory at the State Prison at Folsom.

Approximately two thousand four hundred inmates will be employed during the 1949-50 Fiscal Year by the Correctional Industries. A number of the inmates are paid on a sliding scale up to 50 cents per day for productive work, in accordance with Chapter 90, Statutes of 1945.

A long range plan is being developed to expand the Correctional Industries activities to provide useful employment for the anticipated increase in number of inmates. The program will extend over a period of five years, and will entail expenditures for buildings, equipment, and inventories.

Funds are being requested to provide for the first year of this program. These funds are principally for the development and reactivation of existing activities and to procure necessary equipment and facilities, including additional warehousing.

Existing activities that are being developed are the Motor Vehicle License Plate Factory, Cannery, and Metal Fabrication Factory, located at the State Prison at Folsom; the Jute Mill, Clothing Factory, and Foundry, located at the State Prison at San Quentin, and the Cannery at the Institution for Men, Chino. Projects that will be activated are a Furniture Factory and a Metal Fabrication Factory at the Institution for Men, Chino.

^a In accordance with the provisions of Sections 400 to 404 of the Business and Professions Code, the Business and Professions Building was constructed and is being operated by the Department of Professional and Vocational Standards as a self-sustaining enterprise. Out of the rentals received from state agencies occupying space in the building and the fees paid by users of its parking facilities, are defrayed the cost of operating and maintaining the building. The remaining receipts are apportioned back to the agencies contributing to the cost of the building in proportion to their respective investments.

Since the major receipts of this fund have been included as expenditures for rent in the budgets of the respective agencies occupying the building, its transactions are not carried into the budget totals.
